## SENATORS IN APPEAL

Martin and Swanson Send Letters to Virginia Voters.

### KEPT BUSY IN WASHINGTON

No Time to Take Stump and Answer Rivals, They Say.

### MASHER FINED BY COURT

Arrest Probably Saved Him From Rough Handling—Reforms in the Penitentiary.

Special Correspondence of The Star.

RICHMOND, Va., June 24, 1911.

"So far I have been unable to discover any considerable strength behind Mr. Jones' candidacy outside of the first district. Even from the first district I am getting most gratifying reports, and I by no means concede that Mr. Jones will get the majority of votes there. I have seen no good reason assigned why Mr. Jones should be substituted for me in the Senate. Of course, any citizen of the state has the right to become a candidate for any office, and the duty will devolve on the people to determine who they will best represent them. I am willing to go before the people on the record I have made, but will, of course, need the assistance of friends."

The foregoing is taken from a circular letter which Senator Thomas S. Martin is sending to his friends and the voters of the state and they are understood to be going to all sections and to all the people, regardless of whether they have voted for him in the past. Senator Martin says that he has undertaken to represent the people, and that if he has failed in that or has failed to respond to any reasonable call made on him, no one has charged it, or if he has failed to discharge any duty or request made of him by the people of the state, whether they voted for him or not, no one has so charged. Senator Martin makes absolutely no reference to the many things with which he has been charged by Mr. Jones, and the reading of the paper in its entirety fails to disclose that he is in any but the most tranquil frame of mind.

It is being reported that Senator Swanson is also sending out literature from Washington, that it is going to the voters of the state in every direction and that he is calling attention to the fact that he is denied the right to appear before the people in person. He is attending to his duties as a member of the United States Senate, a duty which he owes to the people at this time.

### Straitlaced and Fusionists.

There is war ahead in the second district, where for some years there have been allegations of a "deal" between the democrats and the republicans whereby the offices have been divided. This alleged fusion business has been repudiated by the straight democrats, and the straight republicans have also taken a hand. The campaign is on, and each side to the triangular dispute is charging that the other side has up "dummy" candidates, that each is trying to deal with the other, that mendacity is a potent and ever-present factor in the controversy, and in general there are charges and counter charges on every hand, with the short and ugly word being hurled with a freedom that is believed to mean trouble before the thing is ended.

Letters have been sent to the straight-out democrats by Senators Martin and Swanson declaring that they hope to see the straight-out democrats win, and Alva H. Martin, the county clerk and alleged "boss" of the county, is receiving unending attention from the straight-out democrats in a very much mixed, with the result in doubt.

### "Masher" Gets Heavy Fine.

That R. C. Miller, a young telephone inspector, is alive and well today is due to the fact that the police caught him before the two brothers and the brother-in-law of a young lady in the city could find him. He was sent to install a telephone. Finding the young woman alone, he addressed her affectionately and then tried to kiss her. She ordered him from the house and told her brothers.

The man was caught in short order, lodged in the police station for the night and was fined \$50 and costs and made to give bond for his good behavior for a year. He denied the charge, but the court paid no attention to him.

### Many Try for Licenses.

The state board of medical examiners has been in session here this week, having a very large class of candidates for license. There were 158 when the session started, and of these there were four ladies—two from Virginia, one from Texas and one from Tennessee. There were twenty-seven negroes, the largest number which has yet appeared before the board, and some of them have been here many times before. They will come again, in the opinion of some of the members, judging from the marks which they made in the past.

The examination lasted for three days, and is declared by the students to be a very severe. The result of the examination will not be made known for at least four weeks.

### Headed for Penitentiary.

Richard Redd, the negro man who tried last week to kill Chief of Police Wright in South Richmond, is headed for the penitentiary, and if he shall be convicted this time it is his last appearance on earth as a free man.

He is 30 years old, and all but nineteen years have been in prison. He confessed to a series of crimes when finally subdued, and implicated his brother and Jake Fitzgerald as his accomplices. They have been taken into custody and will have to answer for horse stealing and other felonies.

### Convict Foot Ball Team.

Unless all signs fall there will be this fall the state penitentiary a foot ball team made up wholly of the uniformed men from the inside of the prison. These are to be the "honor" men, many of whom are now on the six base ball teams now in that institution. The details for the "sport" when the base ball season shall close are not perfected, but there is ample ground for the game.

Mal. Wood, the superintendent, declares that there has never been such a reform as has followed the system now in vogue in the penitentiary. The men are given promotion and encouragement for good behavior in the prison. There are 700 men in the penitentiary, and others are striving for with might and main. The men who obey all the rules for a year or more who engage in the games and recreation outside the prison cells.

### Rations for Revenue Cutter Crews.

The contract for supplying rations to revenue cutters on the Chesapeake station and to the service station at Arundel Cove, Md., for the fiscal year ending July 1, 1912, has been awarded to Claridge & Woodall of Baltimore. This contract not only applies to the cutters Apache and Guthrie, but to any other vessels of the service that may visit Baltimore in the fiscal year and may need stores.

### Lowest Bid for Bonds, 102.2167.

The lowest bid accepted for the government's fifty-million-dollar three-per-cent bond issue is 102.2167. Final tabulation of all the bids has shown that result. The first estimate of Treasury officials was 102.2139. Any person who bid 102.2167 or more is sure of receiving some part of the issue.

## VALUE OF VIRGINIA

Farmers Are Harvesting an Unusually Good Crop of Wheat

### APPLE CROP TO BE SHORT

Probably Will Not Exceed More Than 30 Per Cent of Normal.

### GEN. WOOD GOT POOR ROOM

Hotel Clerk Failed to Identify "L. Wood, Washington, D. C."—Part of Boyd Estate Sold.

Special Correspondence of The Star.

WINCHESTER, Va., June 24, 1911.

Favorable weather during the past week has enabled the farmers to make rapid progress with the harvesting of wheat and the work of gathering in the golden grain has been general throughout the entire Shenandoah valley. Although several recent rain storms cut down some of the wheat in certain localities and damaged other fields, the yield in general will be much better than many of the farmers had anticipated.

The straw is short, but the grain is well filled, and the wheat is said to be of an excellent quality. There will be little hay gathered, and farmers and others who own live stock will have to depend upon the outside markets. The corn in most cases is unusually late, but it has a healthy appearance, and a bumper crop is expected in the fall.

### Apple Crop Is Short.

At a meeting of the board of directors of the Virginia Horticultural Society held this week at Staunton the statement was given out that not more than 30 per cent of a full crop of apples will be grown in Virginia this year, according to the present outlook, but that fruit growers in Frederick county who were in town today declared that that statement would not hold good so far as this immediate locality is concerned.

Thousands of trees in Frederick county will mature and bear fruit in paying quantities this year for the first time, and it is expected that the local crop will be much larger than those of other counties in the fruit belt of the state.

The administrator of Lewis Grim of Winchester, who sued the Winchester and Washington City Railway Company for \$10,000, was awarded a verdict of \$1,449.50 this week in the circuit court by the jury which tried the case, and the company gave notice that it would carry the case to the supreme court of appeals of Virginia.

Dr. M. B. Waite of the United States Department of Agriculture was here this week and addressed a large gathering of local fruit growers concerning the best methods of preventing further injury to fruit trees by the use of certain brands of spraying fluids and compounds.

### Preparing for Horse Show.

All the grounds and roadways in the vicinity of the Berryville horse show grounds have been saturated with oil by the directors in order to lay the dust during the annual horse show. Many important improvements will be made to the grounds before the show opens.

A large part of the historic Boydville estate, near Martinsburg, once the home of the Boyds and now the home of the Faulkners, was sold by Judge E. Boyd Faulkner to the Hill-Crest Land Company for \$105 an acre. Some of the land has been acquired by the Standard Lime and Stone Company, and the balance has been divided into building lots.

Leut. Noah Holding, who served in a Pennsylvania regiment during the civil war, and who was captured at Winchester and confined to Libby prison six months, died last week at his home at Berkeley Springs, aged seventy years.

The Dan Rice circus, which began its season recently in Charleston, W. Va., played in bad luck in this section this week, resulting in the management making an assignment at Charles Town. Trustee Campbell gave a twenty-thousand-dollar bond.

Inasmuch as all the bids received for the construction of a waterworks system in Romney, W. Va., were much higher than the amount realized from the recent bond issue, the town has decided to do the work itself. Several alterations have been made in the original plans.

### Road to Use Telephones.

Linemen have just completed the work of stringing new wires over several divisions of the Chesapeake and Ohio railway for the introduction of the telephone system of dispatching trains. The work was begun at Staunton, and is to be extended eventually all over the system.

Mrs. E. D. Hardisty, wife of a wealthy retired merchant of Berryville, died at her home in that place several days ago of a brief illness of paralysis.

While Robert B. Hoover, eighty years old, was sitting in a chair at the home of his daughter, Mrs. G. D. Wine, near Charlestown, he suddenly expired, passing away as he slept. During the civil war he served in Company I, 5th Virginia Infantry.

### Children Start Fire.

Several of Walter Allamang's children, who were playing with matches a few days ago in a bedroom at their home at Stephenson, set fire to the house, but the structure was saved by the combined efforts of the entire neighborhood.

The frequency of false fire alarms in Winchester has aroused the ire of the municipal authorities, and the city council will be asked to offer a reward for the apprehension of the miscreants, whose acts are considered, it is claimed, to lessen the efficiency of the department.

A number of suits have been instituted by the local courts to settle the estate owned here by S. N. Wildup, president of the National Brick and Concrete Association, who has died.

Frederick by Boaz Gardenhour for notes amounting to about \$5,000. Efforts are being made by the court to liquidate the affairs of the company, and to effect a new organization. The property is mortgaged for \$50,000, and it is said that \$40,000 will be necessary to take it over.

### Land Brings High Price.

Pittsburg and Waynesboro interests have paid \$150 an acre for the farm belonging to Miss Julia Terrell, near Charles Town, Jefferson county, W. Va. The farm contains apple trees, which have been bearing for several years, and it is the intention of the new owners to plant the entire farm in apples.

Richard Evelyn Byrd, speaker of the Virginia house of delegates and editor of the Winchester Evening Star, is making the principal address at the annual meeting of the Virginia Press Association.

## House & Herrmann

WHEN IN DOUBT BUY OF COR. 7th & EYE (1) STREETS, N.W.

No extra charge for laying.

## CHINA FINDS IT HARD TO STOP OPIUM GROWING

### Troops Needed in Some Districts to Enforce Law Against the Industry.

LONDON, Saturday, June 17.—The detailed report of Sir Alexander Hosie, consul general at Tientsin, on the cultivation of the poppy and the production of opium in the provinces of Shansi, Shensi, Kansu, Szechuan and Yunnan, has just been issued by the foreign office, and shows that generally the Chinese government has made sincere efforts to stop the production and use of the drug, with a marked measure of success.

Of Shansi the report says that the cultivation of the poppy was eradicated several years after the order was given by the imperial government, but that last year attempts again were made to grow it in two districts, with disastrous results to the growers. Troops were sent into the districts and when the people resisted the suppression of an industry out of which they had made their living for years twenty were killed and the plants were uprooted.

### GIVES CAMORRIST NAMES.

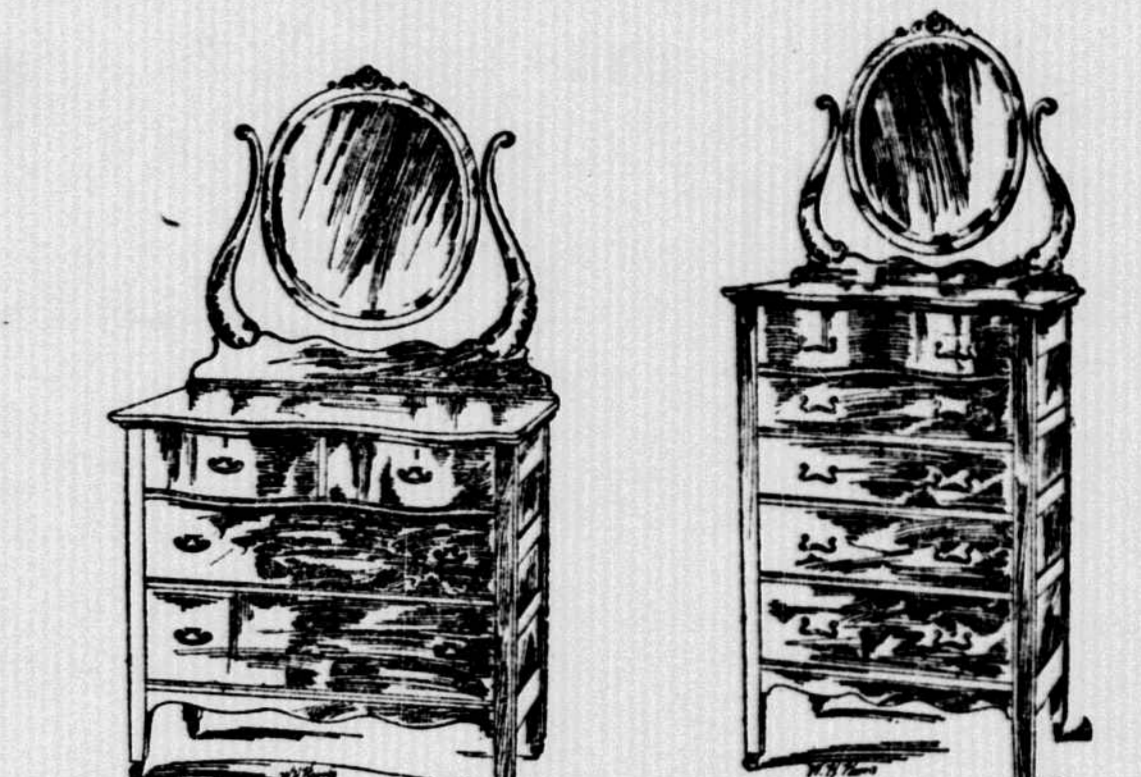

Prison Guard Furnishes List of Those at Bagnoli Banquet.

VITERBO, Italy, June 24.—The Camorrist list today was exciting. Giuliano, a marshal of carabinieri and head of the prison guard at Puzzuoli, near Naples, where many of the prisoners had been confined, was interrogated. He gave a list of Camorrist who he asserted, attended the banquet at Bagnoli, when, according to the prosecution, the deaths of Gennaro Cuocolo and his wife were determined upon.

The defense was quick to note that the names of the accused were given by a witness in the same sequence as they appeared in the list introduced by the informant, Gennaro Abbate, and they noisily charged that the witness and the informant had prepared their list together.

Giuliano also was confronted by Enrico Alfano, the alleged directing spirit of the Camorra, resulting only in an exchange of insults and accusations.

### Matched Bedroom Suites.

Consisting of Dresser and Chiffonier. They are made of Genuine Oak, with American Quartered & E finish, polished like a mirror. The top drawers of both pieces have swell front and they are surmounted with shaped French bevel plate mirrors.

### The Alaska Refrigerator Co.'s popular models are the "Star," the "Sitka," the "Alaska" and the "Majestic."

They are designed expressly to meet the requirements of the family in house or apartment. In their compactness they give you ample storage for provisions and food. They are made upon the scientific principles which have given the Alaska Refrigerator Company's Refrigerators superiority over every other make. They are lined with zinc, enamel or porcelain. The cases are of hardwood, highly polished, or porcelain, and the sizes range from that which you can conveniently use in the apartment to that required for the largest family.

**\$6.50 to \$138.00**

## BOOMED FOR HIGH OFFICE.

John Lewis Smith Indorsed for Commander-in-Chief, S. W. V.

John Lewis Smith of Washington, a member of Gen. Nelson A. Miles Camp, No. 1, Department of the District of Columbia, United Spanish War Veterans, has been unanimously indorsed by the Department of the District of Columbia for the office of commander-in-chief of the national organization. The election will be held at the next national camp to be held at Oklahoma City, Okla. Members of every camp of the Department of the District of Columbia have signified their intention of working for the success of Mr. Smith.

As a member of the United Spanish War Veterans his record begins at the foundation of the organization, according to a statement just issued. Nelson A. Miles Camp, No. 1, was organized May 20, 1898, and is the senior organization of the United States. He has been the senior commander of the camp and has been a delegate to several encampments. He was judge advocate of the department in 1904-05; department adjutant in 1904-05; department commander, 1905-06; national judge advocate general, 1907; national assistant inspector general, 1908-09; aid on staff of commander-in-chief, 1909-10, and member of national legislative committee from 1907 up to and including the present time.

### Blaze at Electric Power Plant.

Number 14 engine company went to the plant of the Potomac Electric Power Company, at 407 8th street north-west, last evening and extinguished a blaze in a transformer. The damage is estimated at \$50.

### HAVE
